

Akila Ranasinghe

Senior Frontend Developer | React.js · Vue.js · Next.js · TypeScript | UI/UX & Low-Code App Development Specialist

ABOUT ME

I'm a Senior Frontend Developer with 7+ years of experience spanning UI/UX design, modern frontend engineering, and AI-powered application development. I specialize in building performant, scalable web applications using React.js, Next.js, Vue.js, and TypeScript, and I bring a designer's eye to every interface I build. My background in low-code platforms and AI integration (LangChain, RAG pipelines, NVIDIA NIM) makes me one of the few frontend developers who can work across the full spectrum from pixel-perfect UI to intelligent, data-driven applications.

SKILLS

Frontend Development:

React.js, Next.js, Vue.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, SCSS, CSS-in-JS

Animation & Interaction:

GSAP, Framer Motion, Lenis Scroll, Webpack, Vite

UI/UX Design:

Figma, Adobe XD, Sketch, Illustrator, Photoshop

AI & Backend:

LangChain, RAG Pipelines, NVIDIA NIM, FastAPI, Python, ChromaDB, SQL

CMS & Integrations:

WordPress, Twilio API, Slack API, CRM & ERP Integrations, RESTful APIs, Webhooks, Zapier

Testing & Quality:

Jest, React Testing Library, Cypress

Version Control & DevOps:

Git, GitHub, CI/CD Pipelines

Accessibility:

WCAG 2.1, Accessibility Standards

State Management:

Redux, Zustand

LANGUAGES

- English
- Sinhala

WORK EXPERIENCE

INSK Group | Sri Lanka

Senior Frontend Developer

Nov 2025 – Present

- Built and maintained scalable web applications using React.js, Vue.js, Next.js, TypeScript, Tailwind CSS, SCSS, and CSS-in-JS.
- Translated Figma designs into responsive, pixel-perfect and accessible frontend implementations.
- Led frontend-focused SEO including SSR/SSG, React Helmet, semantic HTML, Open Graph, Core Web Vitals and structured data.
- Applied performance optimization techniques including lazy loading, code splitting, image optimization and critical CSS optimization.
- Implemented custom WordPress themes, plugins and third-party integrations.

Appspotr AB | Sri Lanka & Sweden

Senior Low Code Application Developer

Apr 2023 – Sep 2025

- Engineered custom logic layers to handle workflows the platform's native engine couldn't support due to complexity.
- Integrated Twilio and Slack APIs alongside CRM and ERP systems, building real-time data flows beyond native connector capabilities.
- Resolved large data rendering bottlenecks and app performance degradation under load by redesigning data-fetch logic and optimizing workflow execution.
- Built multi-step approval flows, complex conditional logic, and cross-system sync pipelines.
- Mentored developers, led technical discussions and made key architectural decisions

Low Code Application Developer

Mar 2022 – Apr 2023

- Developed and deployed scalable applications integrating third-party services including CRMs and messaging APIs.
- Implemented RESTful API integrations and webhook-based connections for real-time data exchange.
- Identified and resolved early-stage performance issues.
- Collaborated with cross-functional teams to translate business requirements into functional application logic.

EDUCATION

BEng (Hons) in Software Engineering

London Metropolitan University (UK) |
ESOFT Metro Campus

2024 – 2025 (Top-up)

Final Project: Web-Based Project
Management Tool for the
Clothing Industry, AI-Powered

Bachelor in Information Technology
(BIT)

University of Colombo | ESOFT Metro
Campus

2016 – 2020

Final Project: Inventory & Stock
Management Web Application

Diploma in IT with E-Commerce
(Pearson Certified)

ESOFT Metro Campus

2014

Cambridge GCE Advanced Level
(2013 – 2014)

Subjects: Physics, Chemistry,
Mathematics (Mechanics & Further
Pure Mathematics)

Cambridge GCE Ordinary Level
(2012 – 2013)

Subjects: English, Mathematics,
Physics, IT, Chemistry, Further
Mathematics

PERSONAL INFORMATION

AKILA PRABASHWARA RANASINGHE

Address

No.302/R/8, Gananahimi Road,
Meegoda, Homagama, Sri Lanka.

Date of Birth

11/05/1996

Phone: +94 76 222 6564

Email: akilaranasinghe@gmail.com

Portfolio 

Linkedin 

Github 

i-Context Pvt Ltd | Sri Lanka

Associate Software Engineer

Sep 2019 – Apr 2022

UI/UX & Web Applications Development

- Grew from designer to someone who could take a design all the way through to working frontend code.
- Developed scalable web apps using Angular & PHP.
- Researched and tested user behaviour to improve UX on exam and quiz modules in an LMS, making complex flows feel simple for end users.
- Translated Figma and Adobe XD designs into clean frontend code, bridging the gap between design and development.
- Worked across web apps, LMS platforms and internal tools handling both design and frontend implementation.

Intern Software Engineer

Jan 2019 – Aug 2019

UI/UX & Web Applications Development

- Designed screens and built prototypes under senior designer guidance.
- Used Figma, Adobe XD, Sketch, Illustrator and Photoshop across live projects.
- Gained hands-on experience across the full design process from concepts through to prototype testing.

PROJECTS

Into the Prompt AI Learning Platform

Led the design and developmeBuilt the full frontend of an AI education platform including an immersive world-map course navigation UI, car dashboard-themed learning interface, progress tracking, streaks and quiz scores. Also built the waitlist system with GSAP animations, WordPress lead capture plugin, email campaign system and admin dashboard.

MotionLANG Developer Tooling / SaaS

Built a motion extraction engine that reverse-engineers animations from live websites. Headless browser pipeline, Universal Motion Format normalisation across GSAP/Framer Motion/CSS, multi-agent AI orchestration via NVIDIA NIM, WCAG 2.1 audit system and Figma plugin bridge.

SolTrim International Wordpress Project

Full corporate website for Asia's first CarbonNeutral® label manufacturer including product showcase, media gallery, news section and an interactive Label Mockup Designer tool.

DocMIND RAG Application

Built a document intelligence app where users upload PDFs and chat with them. Full RAG pipeline including PDF parsing, chunk embedding, vector storage in ChromaDB, and answer generation via NVIDIA NIM. FastAPI backend with React and Tailwind frontend.
